

# All about me

**Name:** Mrs McKay

## Introduction

I am looking forward to meeting you all and making you welcome at Hillside. We can never underestimate the importance of moving from primary to secondary school and it is very normal to have some butterflies when you think about moving to secondary. It will be my job to make your transition to secondary school much easier by being your main contact day-to-day whilst you are at Hillside.

## School life so far

### What do you enjoy?

I enjoy meeting different pupils throughout the day whether I am teaching them or passing them in the corridor, canteen or playground! I also love being a form tutor and being a friendly and comforting face for pupils in my form.

### What do you struggle with?

I sometimes struggle with remembering which side of the school classrooms are located (yes - despite being a geography teacher) but luckily the school is very easy to navigate, so it is difficult to get lost!

## Hobbies

I enjoy swimming and going to the gym as well as taking my French Bulldog on walks to Crosby and Formby beach.

## Favourite things

**TV programme** – Undateables

**Food** – Salt and pepper chips

**Film** – Shutter Island

## Your subject

### What subject do you teach?

I am a teacher of geography.

### What do you enjoy most about your subject?

I love exploring different cities and cultures of the world and using technology to bring it into the classroom!
